

Exporting Skills in Skill Tracker

Create PDFs of selected skills to use in portfolios, reports, college applications or student conferences.

*You can only export skills by logging into Skill Tracker via a web browser (not through the Tracker Apps app)

1. Go to <https://portals.tracker-apps.com> and log in using your Tracker Apps log in information
2. Click on the export symbol on the bottom left of the screen

3. Select the logs that you would like to export then click 'export'. A PDF file will be generated.
