

Service Tracker

# Service Tracker

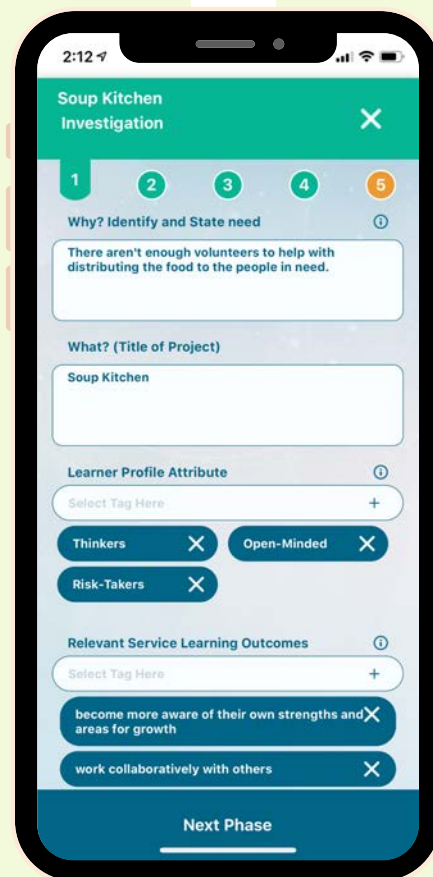

## The guide by your side

A structured, step-by-step means to track and evaluate service learning progress.  
Designed with students, teacher and coordinators at the centre.

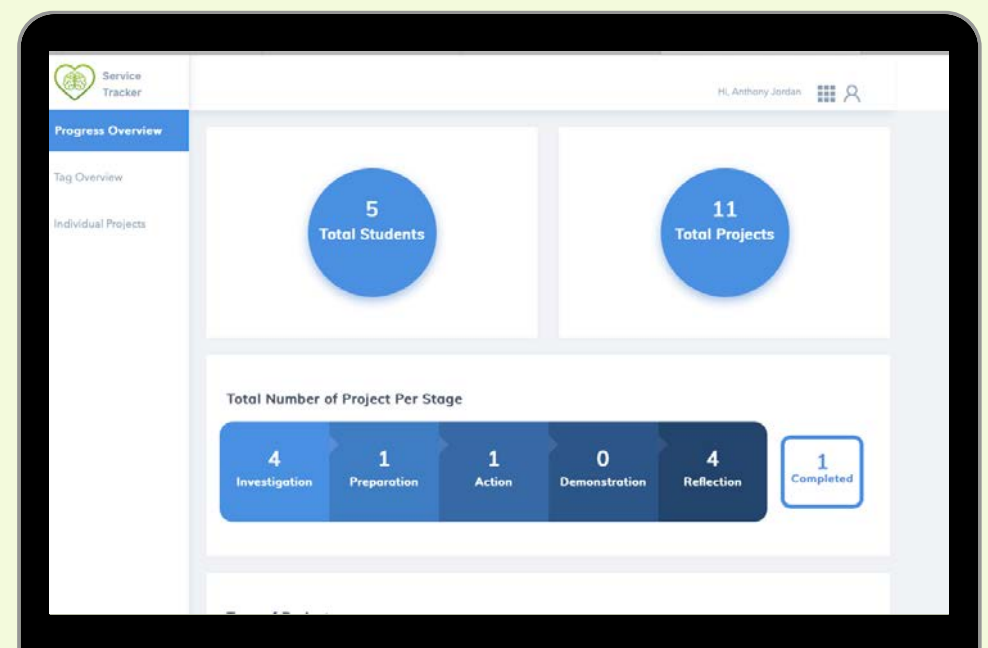

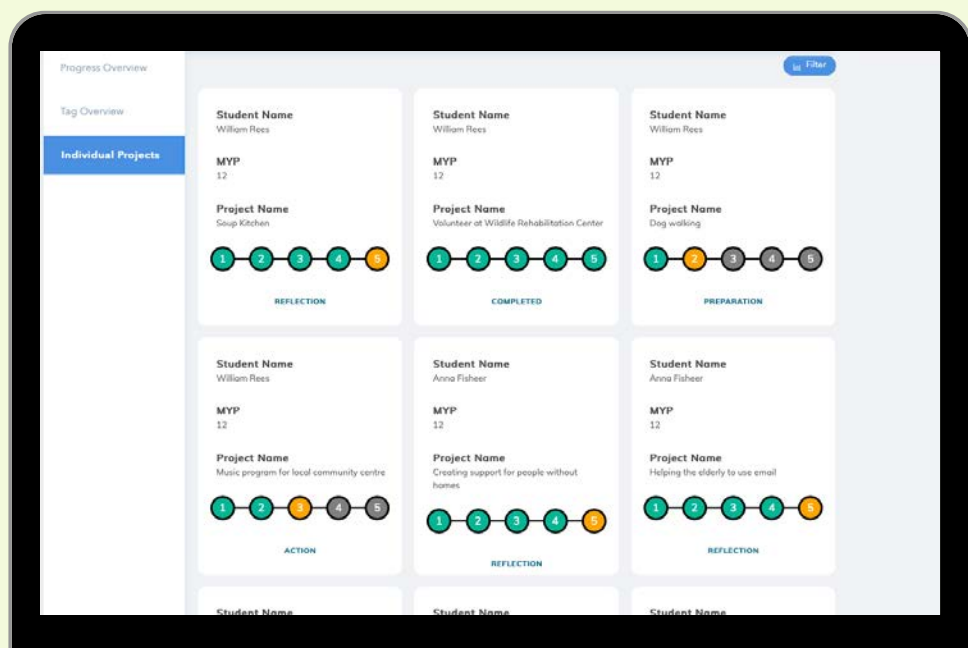

### Students

- Investigate and plan service learning experiences
- Log actions and record evidence of service learning projects
- Guided review and reflection through the five CAS stages

### Teachers & Coordinators

- See all service learning experiences at a glance
- View data connecting service learning outcomes, ATL skills and Learner Profile attributes
- In-depth view of individual student experiences

- In app support and prompts
- Access via iOS, Android or web browser
- Upload actions and reflections in a variety of formats
- Export completed service learning experiences for portfolios

- Ideal tool for MYP and DP service learning
- Data shows impact of school service learning programme
- Relieves administrative burden on coordinators and teachers
- Aligned with International Baccalaureate requirements

#### More information:
