

Skill Tracker

Skill Tracker

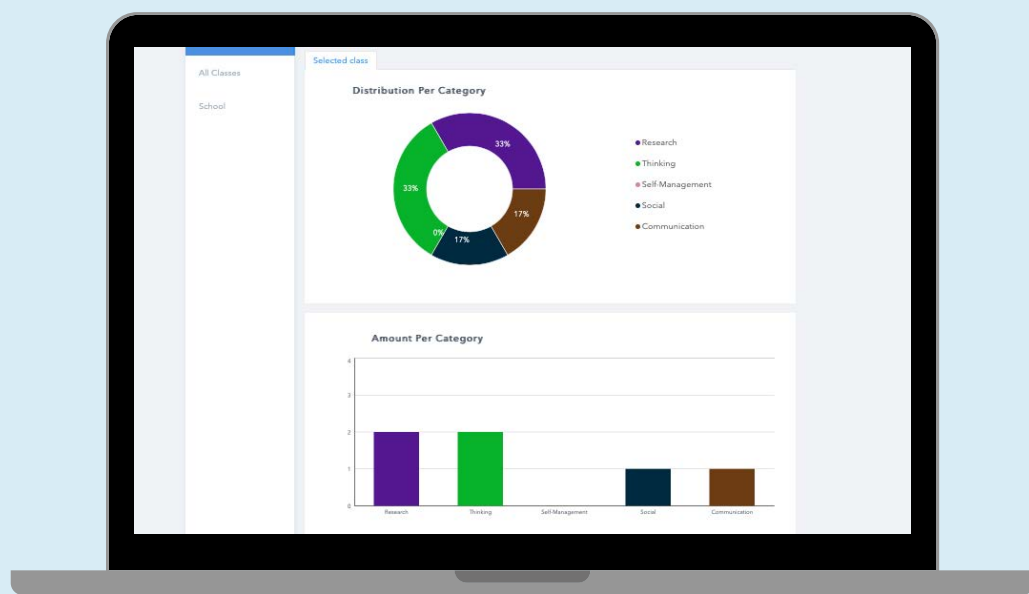

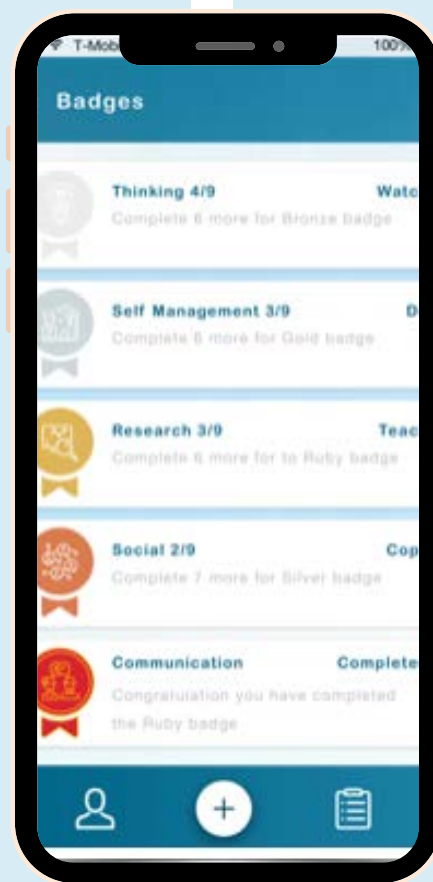

The guide by your side

A structured, step-by-step means to track and evaluate ATL skill development.
Designed with students, teacher and coordinators at the centre.

Students

- Quick and stress-free method to log evidence of ATL skill practice
- Develop self-awareness and set goals for ATL skill development
- Earn rewards based on ATL skills logged in different subjects and ATL skill categories

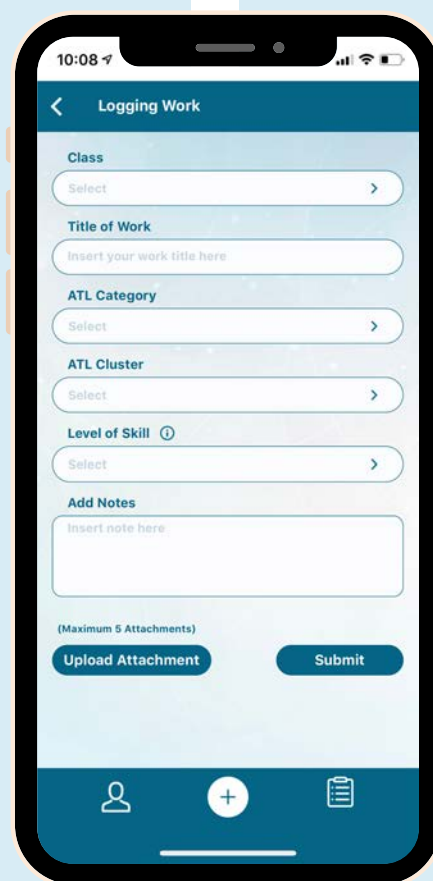

- In app support and prompts
- Access via iOS, Android or web browser
- Upload actions and reflections in a variety of formats
- Export selected ATL skill activities for portfolios

Teachers

- Clear overview of class and individual data logged by ATL category and cluster
- Get feedback on the curriculum from the perspective of students
- Perfect companion tool for your unit planner
- Promotes student agency and motivation

Coordinators

- Ideal tool for tracking ATL skill development horizontally and vertically through the curriculum
- Provides data to inform and guide review of curriculum
- Aligned with and provides evidence for the International Baccalaureate programme standards and practices
