

Tips for Teaching Online

Student success in online learning is strongly connected to **skills**

- **Persistence**
- **Self-regulation**
- **Communication**

Support these skills by adapting your teaching approach to the online learning environment

Personal not product

- Make time for informal chat
- Ask your students about their day
- Provide space to share, question, vent, celebrate
- Model dealing with technical challenges

Short and sweet

- Limit time spent on synchronous learning
- 1 specific lesson objective
- Minimise the number of 'clicks' that students need to navigate resources and lesson materials

Regular and reassuring

- Acknowledge and commend effort & persistence
- Praise more
- Be adaptable to communicating with students in different ways (chat, email, audio message)

Connect to create

- Starting with a new group of students? Introduce them to each other so that they feel more comfortable connecting
- Help students find common interests and ideas
