

APPROACHES TO LEARNING

Social

Thinking

Self Management

Research

Communication

Social

- How often do I listen actively and show empathy?
- Do I give meaningful feedback?
- Am I a good team player?

Critical Thinking

- Am I thinking about the information I am reading?
- Can I see different points of view in the information?
- Am I able to think about the consequences of different actions?

Creative Thinking

- Can I shift my perspective to solve a problem in a different way?
- Am I able to find new solutions to existing problems?

Transfer

- Can I use the skills from one subject and apply them in a new situation?

Organization

- What strategies do I use when planning assignments and meeting deadlines?
- Are my goals challenging, motivating and realistic?

Affective

- Have I developed techniques to control stress and anxiety
- Do I know what makes me happy and engaged?
- Do I learn from my mistakes and 'fail well'?

Reflection

- Do I think about how I do my school work?
- When did I try to practice new skills?
- What are my strengths and weaknesses as a learner?

Information Literacy

- How do I access and use information?
- Do I know that the information I use is reliable?
- Am I demonstrating academic integrity?

Media Literacy

- How often do I seek multiple perspectives
- How do I locate and organise information from a range of sources?
- Do I question what I am seeing, reading and hearing?

Communication

- Do I consider the audience when presenting?
- Can I spot nuances in non-verbal communication?
- Which media do I use to communicate my ideas
- Can I communicate in a wide variety of ways?
