

GETTING STARTED WITH TRACKER APPS

Congratulations! You've decided to empower your students and teachers through helping them track skill development and service learning at your school. Getting started with Tracker Apps involves the following steps:

SCHOOL SUBSCRIPTION

Includes student apps, teacher web portal and school administration portal

1

Subscription details

- Choose number of student subscriptions and length of subscription
- Sign the service agreement

2

Technical set up with your students and teachers

- Tracker Apps provides 100% support for this OR you can choose to set up your school data through the Tracker Apps administration panel

3

Decide on training

- We provide virtual training, webinars and resources depending on your school needs

4

Enhance teaching and learning

- As students start creating data, teachers can analyse, reflect and enhance curriculum implementation

INDIVIDUAL SUBSCRIPTION

Student app only

1

Download Service Tracker via the App/Play store

2

Start planning, tracking and reflecting on service learning experiences

Individual subscriptions can be converted to a school subscription.

Currently, only Service Tracker is available for individual purchase.
